### Typical Physical Characteristics

Properties	WP HD 80W-90		
VISCOSITY	@40 °C	cSt	130
	@100°C	cSt	15.8
VISCOSITY INDEX			128
FLASH POINT			>200°C (>392°F)
POUR POINT			-30°C (-22°F)
DENSITY			0.894 kg/l

These characteristics are typical of current production. Whilst future production will conform to manufacturers specification, variations in these characteristics may occur.

### Health, Safety & Environment

- **Health and Safety**

WP HD 80W-90 is unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). For more information and recommendations, please view the Safety Data Sheet (MSDS). This product should not be used for purposes other than its intended use.

Avoid contact with skin. Use impervious gloves with used oil. After skin contact, wash immediately with soap and water.

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from [www.WestPier.ca](http://www.WestPier.ca)

- **Protect the Environment**

Take used oil to an authorized collection point. Do not discharge into drains, soil, or water.

### Additional Information

- **Advice**

Advice on applications not covered here may be obtained from your WestPier representative.
